Independent Accountant's Review Report

The Board of Directors
420 Real Estate LLC

I have reviewed the accompanying financial statements of 420 Real Estate LLC, which comprises the balance sheet as of April 30, 2019, and the related statements of income, changes in members' equity, and cash flow for the one month then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My responsibility is to conduct the review engagements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the American Institute of Certified Public Accountants. Those standards require me to perform procedures to obtain limited assurance as a basis for reporting whether I am aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I believe that the results of my procedures provide a reasonable basis for our report.

Accountant's Conclusion

Based on my reviews, I am not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

420 Real Estate LLC (the Company) is a development stage Texas corporation. The Company is a diversified investment vehicle that is focused on the acquisition of licensed medical cannabis real estate. Property and equipment are recorded at cost, net of accumulated depreciation. Depreciation is computed using a straight-line mid-month convention over the estimated useful lives of the assets, which for furniture and fixtures, computer equipment, rental assets and most software range primarily from three to five years.

Repairs and maintenance performed on equipment or software are expensed as incurred.
